Harassment is a form of discrimination and includes any conduct that adversely affects a positive learning environment, including but not limited to actions or comments that are sexual in nature, violent or threatening violence, hazing, or demeaning, that the perpetrator knew, or reasonably should have known, would be unwelcome. Harassment leads to adverse impacts to the person(s) experiencing harassment as well as those around them, and negatively impacts the camaraderie we value.

Harassment can take many forms, but generally involves conduct, comments, or display that is insulting, intimidating, humiliating, hurtful, demeaning, belittling, malicious, degrading or otherwise cause offense, injury or potential injury, discomfort, personal humiliation or embarrassment to a person or group of persons. The corps expressly prohibits harassment of any kind under any and all circumstances.

Hazing is expressly prohibited by the corps under all circumstances.

4.3. Bullying

Bullying will not be tolerated. In this context, “bullying” includes actions, whether threatened or real, towards or against any individual or group, whether by actions, words, gestures, symbols, or verbal or physical intimidation of any kind. It is designed to intimidate, embarrass, coerce, or shame an individual or group. Bullying is utterly inconsistent with who we are and what we strive to be.

4.4. Sexual Harassment

Sexual harassment is harassment, whether between individuals of the same or different sex, which includes unwelcome behavior or conduct of a sexual nature that is made, either explicitly or implicitly, a condition of an individual’s experience, participation, or advancement in Reading Buccaneers programs or activities or the submission to or rejection of such behavior or conduct is a factor in decisions affecting that individual’s experience, participation, or advancement in Reading Buccaneers programs or activities.

The corps seeks to create an atmosphere free of discrimination and harassment in any and all forms. To this end, the corps expressly prohibits any form of unlawful harassment based on race, color, religion, sex, national origin, age, gender identity or expression, sexual orientation, disability, or veteran status. All members are responsible for assuring that the corps' workplaces are free from harassment or discrimination of all kinds. Improper interference with the ability of the corps' Staff to perform their expected job duties in a healthy and safe environment cannot be tolerated and may be considered grounds for immediate termination of your relationship with the corps.

- 4.6.6.** An individual's filing of a complaint or charge with any outside agency or entity will not affect any Reading Buccaneers investigation concerning the same or similar events.

4.7. Retaliation

- 4.7.1.** Retaliation occurs when an adverse action is taken against an individual for engaging in protected activity. Protected activity consists of:
 - 4.7.1.1.** Opposing conduct reasonably believed to constitute discrimination, including harassment, that violates an employment discrimination statute; or

7.5. Abuse of Power and Authority

7.5.1. Staff has the authority to set member schedules, status within their section and ultimately decide Member continued participation in the program. - 9.4. False reporting will not be tolerated. Should it be determined after appropriate investigation that an allegation was brought based upon revenge, anger, dislike or any other improper motive, the individual or individuals making the false report will be subject to immediate disciplinary action in the sole discretion of the Executive Committee.

10. Concussion Protocol

10.1. Introduction

A concussion is a type of traumatic brain injury that impairs normal function of the brain. It occurs when the brain moves within the skull as a result of a blow to the head or body. What may appear to be only a mild jolt or blow to the head or body can result in a concussion.

The understanding of sports-related concussion continues to evolve. We now know that young athletes are particularly vulnerable to the effects of a concussion. Once considered little more than a "ding" on the head, it is now understood that a concussion has the potential to result in a variety of short- or long-term changes in brain function or, rarely, death.

10.2. Recognition and Management

- 10.2.1. If a member exhibits any signs, symptoms or behaviors of a concussion, the member will be removed from all activity and closely observed. Sustaining another head injury after a concussion can lead to worsening concussion symptoms, increased risk for further injury and, rarely, death.
- 10.2.2. Members are not expected to "diagnose" a concussion. That is the role of an appropriate health-care professional. However, everyone should be aware of the signs, symptoms and behaviors associated with a concussion.

10.2.3. Observed Symptoms (Red Flags)**

- 10.2.3.1. ** Loss of consciousness
- 10.2.3.2. ** Seizure
- 10.2.3.3. ** Increasing Sleepiness
- 10.2.3.4. ** Worsening headache
- 10.2.3.5. ** Persistent vomiting

- 10.2.3.6. Dazed or stunned appearance
- 10.2.3.7. Confusion about assignments
- 10.2.3.8. Forgetful, for example, doesn't follow instructions
- 10.2.3.9. Clumsy movements
- 10.2.3.10. Slow response to questions
- 10.2.3.11. Mood, behavior, or personality changes
- 10.2.3.12. Inability to recall events prior to or after a hit or fall

10.2.4. Reported Symptoms by members

- 10.2.4.1. Headaches, or "pressure" in the head
- 10.2.4.2. Nausea or vomiting
- 10.2.4.3. Dizziness, or balance problems
- 10.2.4.4. Double or blurry vision
- 10.2.4.5. Sensitivity to light and/or noise
- 10.2.4.6. Feeling sluggish, hazy, foggy, or groggy
- 10.2.4.7. Concentration or memory problems
- 10.2.4.8. Confusion
- 10.2.4.9. Emotions of "not feeling right" or "feeling down"

10.3. When in doubt, sit them out

- 10.3.1. Members suspected of having a concussion shall be immediately removed from all activities and kept out for the duration of the day of the injury.
- 10.3.2. Ensure the member's parent/guardian is contacted and member is evaluated by an appropriate health-care professional. Red Flag symptoms should be evaluated immediately by Emergency Medical Personnel.
- 10.3.3. The signs, symptoms and behaviors associated with a concussion are not always apparent immediately after a bump, blow or jolt to the head or body and may develop over a few hours or longer. A member should be closely watched following a suspected concussion and should never be left alone.
- 10.3.4. Members should never try to "tough out" a concussion. Members should never encourage another to "play through" the symptoms of a concussion. In addition, there should never be an attribution of bravery or courage to members who play despite having concussion signs and/or symptoms.

10.4. Return to activity

- 10.4.1. After suffering a concussion, no member should return to activities on that same day. A member should never be allowed to resume activities following a concussion until symptom free and given the approval to resume physical activity by an appropriate health-care professional. Once cleared to return to activities, the member should be slowly re-introduced to activities to allow the brain to re-adjust to activities.

11. Pandemic Protocol

11.1. COVID-19

11.1.1. Vaccination

- 11.1.1.1. The Reading Buccaneers are committed to safeguarding the health and well-being of all of members and fans. As such, all Reading Buccaneers members must be fully vaccinated against COVID-19, as defined by the Centers for Disease Control (CDC) in their most current guidance. Should CDC guidance on vaccination against

COVID-19 be amended during the course of the season, the corps' Executive Committee will determine a timeline in which all members are expected to bring themselves back into compliance with CDC guidelines.

11.1.2. Protective Measures

11.1.2.1. The corps, informed by the most current recommendations of public health authorities, may require certain additional measures to reduce the spread of COVID-19. These may include, but are not limited to masking, social distancing, regular temperate check, bell covers, etc.

11.1.3. Accommodations

11.1.3.1. Facilities used to support corps activities will have the capabilities to support the adherence to COVID-19 specific CDC guidelines. This includes, but is not limited to rehearsal space, restrooms, eating areas, etc.

11.1.4. Member Choice

11.1.4.1. Members' choice to protect themselves above and beyond CDC guidelines will be respected and accommodated where possible.

11.1.5. Close Contact and/or Exposure

11.1.5.1. The Reading Buccaneers only operate on the weekends, presenting a larger potential for member exposure to COVID-19 outside corps activities. Members must report any potential exposure to COVID-19 to the Director or a member of the Executive Committee. The latest CDC guidance will be used to determine what testing and/or quarantine is required in order for the member to be permitted to return to corps activities.

11.1.6. COVID Symptomatic Members

11.1.6.1. Members experiencing any symptoms of COVID-19 outside of corps activities, mild or otherwise, should contact the Director or a member of the Executive Committee. Decisions on when the member may return to corps activities will be determined by the latest CDC guidelines.

11.1.6.2. Members showing initial symptoms of COVID-19 during corps activities, mild or otherwise, will immediately notify the Director, Executive Committee, or staff, and remove themselves from the vicinity of corps activities. The latest CDC guidance will be used to determine member status and whether corps activities are safe to continue.

11.1.7. Testing

11.1.7.1. COVID-19 testing is an individual responsibility. The Reading Buccaneers do not provide or administer COVID-19 tests.

12. Lightning Protocol

12.1. It is imperative that all personnel are aware of lightning hazards. In the event of lightning during a rehearsal or event, precautions must be taken to ensure the safety of members. The director, or any present executive committee member will be responsible for monitoring inclement weather.

- 12.2. Lightning awareness should be heightened at the first flash of lightning, clap of thunder, and/or other criteria such as increasing winds or darkening skies, no matter how far away. The Director, or any executive committee member is responsible for monitoring the progress of inclement weather using a Weather App that monitors lightening strikes. Any lightning strike within 8 miles will be an indicator to clear the field of rehearsal. The Director or executive committee member will notify the staff, who must immediately comply and have members move to a safe shelter. If a structure is not available for shelter, members should shelter inside a fully enclosed vehicle.
- 12.3. Outdoor activities should not restart until 30 minutes has passed since the last lightening or thunder is seen or heard.

13. Heat and Hydration

- 13.1. Extended exposure to extreme heat can result in heat-related illness such as hyperthermia, where the body temperature rises as a result of not being able to properly cool itself.

13.2. Mitigating Heat Illness

- 13.2.1. Regularly scheduled rest periods will be provided to members. Members should make use of available shaded spaces to get out of the sun and cool off. Rest period frequency will be adjusted by the administration and/or staff based on factors including but not limited to temperature, humidity, and rehearsal surface. Asphalt, concrete, and turf fields can be 30F warmer than grassy surfaces.
- 13.2.2. Water will be accessible to each member during rehearsal. Fluids containing either caffeine or alcohol should be avoided as they can accelerate fluid loss and worsen heat exhaustion. Regular water breaks will be provided to ensure members are properly maintaining hydration levels. Water break frequency will be adjusted by the administration and/or staff based on factors including but not limited to temperature, humidity, and rehearsal surface. Asphalt, concrete, and turf fields can be 30F warmer than grassy surfaces.
- 13.2.3. Hats and/or headbands will be worn to shield the head and neck area from direct sunlight. Hats should be ventilated to allow heat to escape and sweat to evaporate.
- 13.2.4. Sunscreen (at least SPF15) will be highly recommended to members to help reflect UV rays and help prevent your body from heating up.
- 13.3. Heat illness related symptoms include dry mouth, headache, head or neck heat sensation, general discomfort, dizziness, disorientation, nausea, thirst, apathy, chills, irritability, weakness, vomiting, excessive fatigue and/or decreased performance, profuse or no sweating, muscle cramps, or loss of muscle function. Any member experiencing any of these symptoms should stop all corps related activities immediately and seek medical attention.
